

STATEMENT OF THE NATIONAL ACADEMY OF EDUCATIONAL SCIENCES OF UKRAINE ON THE DECISION TO OPEN NEGOTIATIONS ON UKRAINE'S ACCESSION TO THE EUROPEAN UNION

<https://doi.org/10.37472/v.naes.2023.st-EU>

The National Academy of Educational Sciences of Ukraine joins the words of gratitude of Ukrainians for the Christmas gift - the historic decision of the European Union to open negotiations on Ukraine's accession to the European Union. This is the result of the titanic work of the Ukrainian team, our soldiers who are defending the country and the whole of Europe. The decision of the European Union motivates and inspires further hard work of the entire Ukraine.

For our part, we would like to note that the Academy's activities have been and are aimed at ensuring Ukraine's European integration, and in May 2022, the National Academy of Educational Sciences of Ukraine contributed to the process of preparing Ukraine for EU membership by taking an active part in filling out the European Commission's questionnaire. Currently, in the context of martial law, in order to provide comprehensive support to Ukrainian soldiers and to address the challenges of post-war recovery and European integration in the future, the subordinate institutions of NAES of Ukraine fruitfully cooperate with scientific institutions and higher education institutions of almost all EU member states. NAES of Ukraine calls on the scientific and educational community of the European Union member states to continue to fully support the Ukrainian people and the whole of Ukraine in its struggle for freedom and democracy, the independence of our country.

*We will win!
Glory to Ukraine! Glory to the heroes!*
